DETAILED ACTION

Response to Amendment

The amendment filed on June 25, 2004 is sufficient to overcome the prior reference.

Allowable Subject Matter

Claims 49-51,53-55, 57, 58 and 60-64 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose a router combination including a base plate removably connected to at least one of the first wall and the second wall and provides a bottom wall for the case, and wherein the router is supportable on the base plate in the cavity as set forth in claims 53, 57 and 60.

The prior art reference, Emmons discloses a portable router having a handle, motor supported in a motor housing and base plate. Emmons is silent to any case and/or removability of the base plate to function as a wall of the case and a support member to the router.

Further, prior art reference, Miller teaches a case for ease of portability of portable power tools. Miller like Emmons is silent to any removability of a base plate. Therefore neither of the prior art references of record alone nor in combination discloses or fairly suggests the claimed invention as set forth in claims 53, 57 and 60. Accordingly, claims 53, 57, 60 and their dependents are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
